

MISSION STATEMENT AND SUSTAINABILITY POLICY

Our mission is to create long term Shareholder value through the exploration, development and mining of precious metal deposits in the Nordic region.

The achievement of this objective is dependent on maintaining a highly skilled professional workforce and respecting the local communities, employees and the environment in which we operate.

SUSTAINABILITY COMMITMENT

Dragon Mining is committed to operating in a way which contributes to sustainable development of mineral resources through efficient, balanced, long-term management while showing due consideration for the well-being of people, protection of the environment and the development of the local and national economy and of society in general.

ENVIRONMENTAL PERFORMANCE

Dragon Mining recognizes the particular responsibility for protecting the environment, since mining cannot be conducted without having an impact. Through mining operations, land is exploited and altered.

The Company is committed to the principle of developing and implementing best applicable practices in environmental design and management and will actively work to:

- Protect the surrounding environment,
- Give environmental aspects due consideration in all phases of mining projects, from exploration through to development, operation, production and final closure,
- Act systematically in the planning, execution, monitoring and improvement of environmental performance.

COMMUNITY RELATIONS

Dragon Mining seeks to be a constructive partner to advance the social, economic and institutional development of the communities in which it operates.

The Company will carry out activities with regard to the interests of affected landowners and other stakeholders.

The Company fully acknowledges the rights, cultures, customs and values of people affected by the development and exploitation of mineral resources.

OPEN AND ACCOUNTABLE

Dragon Mining will meet the continuous disclosure requirements of The Australian Securities Exchange and on a regular basis will update the financial market, shareholders, employees and other stakeholders.

The Company recognizes that exploration activities entail particular responsibilities regarding early information to landowners.

The Company will comply with international and local accounting standards and will report in accordance with the Australasian Code of Reporting for Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2012)

HEALTH AND SAFETY

Dragon Mining is committed to creating and maintaining a safe and stimulating working environment where everybody is valued and respected.

The Company will continuously identify and minimise risks at work. Openness and the involvement of all employees will be encouraged being crucial to creating a safety culture and maintaining a safe work place.

CONTRACTORS

Dragon Mining will expect all contractors to work according to the Sustainability Policy.
